As my first year as the membership secretary and it has been a steep learning curve having never done the role before. A big thank you to Vicky Chapman, the previous membership secretary, for all her help whilst I learnt the ropes.

I would suggest *most* of the subscriptions have now come in, but I'm still receiving renewals through the post and electronically. It's too early to give definitive numbers but I feel as though the membership numbers will be comparable to last year.

Membership numbers over the past few years have been dropping off. Official resignations were four, although I think members are more likely to just not renew their membership rather than officially inform me. This figure will be more apparent a month or two down the line once all the renewals are in.
